Looking forward with SSNAP: Data collection and reporting

Professor Martin James,
SSNAP Clinical Director

SSNAP | **Sentinel Stroke National Audit Programme**

Contents

1. The last 6 months

2. The next 6 months

3. Preparation and getting involved

What has SSNAP been up to over the last 6 months?

01 **Routine reporting outputs**
January-March
April-June
July-September

02 **Monthly national COVID reports**
'An insight into stroke care during COVID-19' available at www.strokeaudit.org/Resources/Webinar

03 **2019/20 annual results portfolio**
7 years of SSNAP data side-by-side

04 **7th SSNAP annual report**
'Springboard for Progress'
Webinar at **15:30-16:15, 9 December**
email ssnap@kcl.ac.uk *for registration details*

What's coming over the next 6 months?

Additional data collection – Long Term Plan

Core dataset changes
Starting a record in the community

Organisational Audits

Post-acute Organisational Audit – March 2021
Acute Organisational Audit – July 2021

Increased frequency of reporting

Online "real-time"
Monthly interim reporting of first-72 hour data

National Data Opt Out (or Consent)

Mandatory checking before locking/validating
data, or transferring the record
https://digital.nhs.uk/services/national-data-opt-out

ISDN-level reporting

Data-driven Quality Improvement

How can I prepare for these changes?

1 — **Identify and engage with post-acute providers within your ISDN and care pathway (for acute providers)**

2 — **Registration and engagement with SSNAP (for post-acute providers)**

3 — **Decide on your approach to National Data Opt-Out and/or Consent**

4 — **Access SSNAP webinars and user groups for acute and post-acute teams**
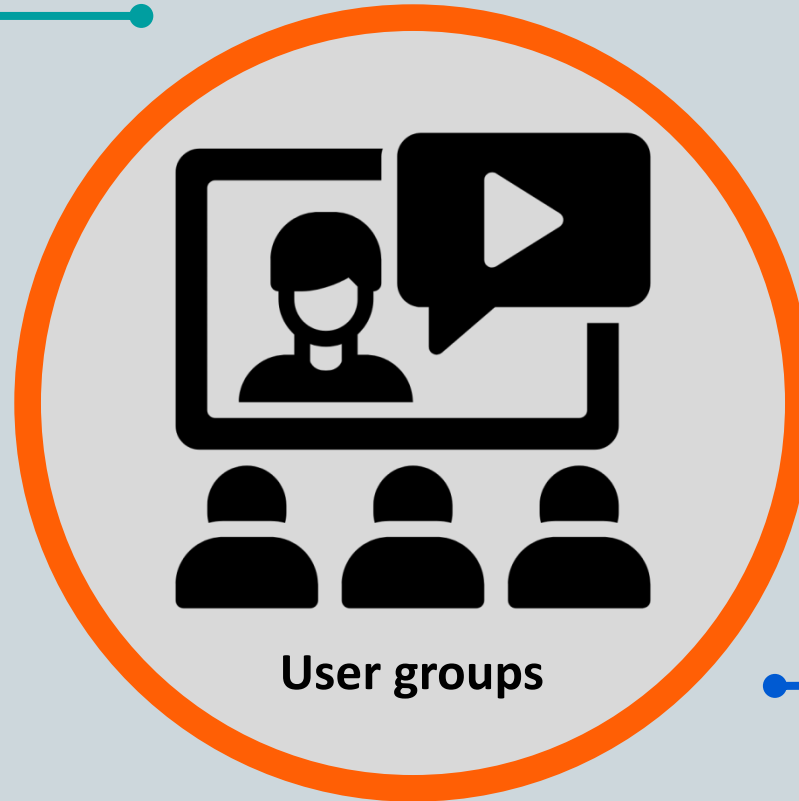

Opportunities to get involved

Post-acute teams

Register for SSNAP and access local user groups

Data entry

Consent

Practice recording therapy

Six-month assessments

Circulate and publicise the **2019-20 Annual Report *'Springboard for Progress'***

User groups

Acute teams

Practice full monthly uploads

Dataset changes

Data entry

Consent and NDOO

Quality Improvement stories

Thank you
